

# Team Meetings

**Date:** March 14th 2022

**Attendees:**

Owen Spicker

Jivraj Grewal

Hassan Brar

Michael Bartinski

**Absent:**

## 1. Project

### Progress

- What we worked on this week.
  - Account creation
  - UI changes
  - Booking verification
- Organize by task/activity.
  1. Account creation
  2. UI changes
  3. Booking verification
- Name which students worked on each task/activity.
  - Worked on account creation. Accounts can now be properly added to the database by userID from firebase. This allowed the diary to start working. Updated diary changes so that it only says diary across the website (used to say journal as well). Worked on by Owen
  - Implementing small UI changes to fix some of the stuff brought up during peer testing. Worked on by Michael
  - Start work on getting the booking to become functional and try and implement an email verification to let the user know their appointment has been booked and the time on the healers booking page gets booked in the database. Worked on by Hassan and Jiv

### Blockers + Surprises

- Things that impeded progress this week.
- Things that came up or were discovered that you didn't expect.
- Possible resolution strategies for moving forward.
  - Was a problem with the GET query for the diary that I did not expect

## 2. Learning Activity

- Summary of your team's learning activity for the week.
- Name which students worked on it.

### 3. Plan

"Plans are worthless, but planning is everything."

#### **Task for this week:**

- What we worked on this week.
  - healer/user id when logging in
  - Booking system verification
- Organize by task/activity.
  1. healer/user id when logging in
  2. Booking system verification
- Name which students worked on each task/activity.

#### **Learning activities proposed for this week:**

- Will look at distinguishing between healers and clients after being logged in. By Owen
- Continue work on the booking system and its appointment verification. By Hassan and Jiv.

#### **Goals for the next milestone:**

- Try and get email confirmation working when an appointment is booked.
- Getting journal feature working for all userID's
- Have the user's account page display relevant information
