Absent:

1. Project

Progress

- What we worked on this week.
- Organize by task/activity.
- Name which students worked on each task/activity.
 - Worked on creating a dropdown menu on hover for the header, which was recommended after peer testing. By Owen
 - Adding code to check if an email already exists. By Michael
 - Worked on booking and making small changes. By Hassan and Jivraj
 - Start work on the final report. By everyone

Blockers + Surprises

- Things that impeded progress this week.
- Things that came up or were discovered that you didn't expect.
- Possible resolution strategies for moving forward.
 - Getting the mouseEnter function works, but I am struggling with getting the dropdown appear with React. By Owen
 - Making sure the right error is caught when a duplicate account is created. By Michael
 - No confirmation page showing. Need to check previous teams documentation. By Hassan and Jivraj

2. Learning Activity

- Summary of your team's learning activity for the week.
- Name which students worked on it.
 - Understanding the documentation that the previous team has provided. By Hassan and Jivraj

3. Plan

"Plans are worthless, but planning is everything."

Task for this week:

- What we worked on this week.
- Organize by task/activity.
- Name which students worked on each task/activity.
 - Try and get the dropdown menu to work by the weekend. Start on the final report. By Owen
 - Work out small bugs with booking

Learning activities proposed for this week:

Goals for the next milestone:

- Try and get email confirmation working when an appointment is booked.
- Getting journal features working for all userID's.
- Have the user's account page display relevant information.
- Work on bugs with the booking system and refer to documentation for help.
