Team Meetings

Date: March 7th 2022
Attendees:
Owen Spicker
Jivraj Grewal
Hassan Brar
Michael Bartinski
Absent:

1. Project

Progress
• What we worked on this week.
- Peer testing report
- Start debugging/changing features
• Organize by task/activity.
• Name which students worked on each task/activity.
- Peer testing. Organizing tasks and putting together the prototype video. Worked on by everyone.
- Collecting feedback on features that were presented and starting to change and work out any bugs found from peer testing. Worked on by everyone.

Blockers + Surprises
• Things that impeded progress this week.
- Merge conflict that prevented account creation from being pushed to the main branch
• Things that came up or were discovered that you didn't expect.
• Possible resolution strategies for moving forward.
- Merge conflict was avoided by coding into the main branch so account creation is in the main branch.

2. Learning Activity

• Summary of your team's learning activity for the week.
• Name which students worked on it.

3. Plan
"Plans are worthless, but planning is everything."

Task for this week:
• What we worked on this week.

• Organize by task/activity.
• Name which students worked on each task/activity.
- Peer testing report (due friday). List findings and put together feedback into a document. Worked on by everyone.
- Work on adding users by userID from firebase to the actual database. Once that works, the journal will be able to start working. By Owen
- Got booking partially working. By Hassan
- Add UI changes to the account information page

Learning activities proposed for this week:

Goals for the next milestone:
- Try and get email confirmation working when an appointment is booked.
- Getting journal feature working for all userID's
- Have the user's account page display relevant information
